

Community Epidemiologist

LIVERPOOL SCHOOL OF TROPICAL MEDICINE

International Health Group – Ref: 984

Salary: £25,751 – £35,646 (depending on qualifications and experience)

Fixed-term position to 30th April 2012 with a possibility of further funding

We are seeking to recruit a Community Epidemiologist to carry out monitoring and evaluation (ME) research and technical assistance related to community health projects and programmes. With a high quality technical advisory and project implementation background, a proactive 'can-do' attitude is a must. A strong involvement in the effective and ethical growth of the Unit through development of successful research and technical assistance grants will be essential to the success of this post.

You should have proven working experience on community health programmes in low resource settings and considerable fieldwork experience in maternal and child health or HIV or reproductive health programmes. A successful record of writing and winning competitive grants are also essential prerequisites of this role, along with excellent organisational and networking skills. With a willingness to work as an integral and co-operative member of a multi-disciplinary/multinational research team, you will have confidence to communicate at all levels and achieve goals with limited supervision. Applications are welcome from candidates who hold a PhD or MD (MB BS) with MPH (or equivalent) or extensive overseas experience and international public health training; including epidemiology.

If you are interested in applying for this post, please send your application including a CV with a covering letter explaining your interest in, and suitability for the post, together with the personal details form and the names and contact details of 3 referees quoting reference 984 to Lstmjobs@liv.ac.uk

Further details are also available from www.lstmliverpool.ac.uk

Closing date for receiving applications: 11th June 2010, 5.00pm BST and interviews will be at the end of June 2010.
